Introduction

This narrative is being provided to assist the reader in understanding the content of the attached administrative Title V Permit amendment. Complex issues and unusual items are explained here in simpler terms and/or greater detail than is sometimes possible in the actual permit. This permit amendment is being issued pursuant to: (1) Georgia Air Quality Act, O.C.G.A § 12-9-1, et seq. (2) Georgia Rules for Air Quality Control, Chapter 391-3-1, and (3) Title V of the Clean Air Act Amendments of 1990. Section 391-3-1-.03(10) of the Georgia Rules for Air Quality Control incorporates requirements of Part 70 of Chapter I of Title 40 of the Code of Federal Regulations promulgated pursuant to the Federal Clean Air Act. The primary purpose of this permit amendment is to make administrative changes to the permit. Such administrative changes may include a facility name and/or ownership change and fixing typographical errors. The following narrative is designed to accompany the permit amendment and is presented in the same general order as the permit amendment. It describes the facility receiving the permit amendment, existing permits and the changes being made to the permit. This narrative is intended as an adjunct for the reviewer and to provide information only. It has no legal standing.

Regulatory Analysis**II. Proposed Amendment**

A. Description of Amendment

This amendment is for a change in the name of the facility, from Williams Energy Ventures to Magellan Terminals Holdings. There is no change in ownership or any physical changes or changes in the mode of operation at the facility. Therefore, this will qualify as an administrative amendment. A new permit has been prepared, which has exactly the same conditions as the original Title V permit, which was issued October 6, 1999. This amended permit will have the same expiration date. New sections 1.10 and 13.00 of the Title V application were included with the cover letter requesting the name change. No other information is required. Approval of this application is recommended.

B. Permit Conditions

There are no permit conditions being changed, added or deleted as a result of this amendment.
