- 2.2.5. The Permittee shall develop, implement and comply with a written site specific plan (the "Plan"), and revisions thereto, that specifies the detailed procedures that will be followed for monitoring and recording data necessary for demonstrating compliance with all applicable provisions of the Vegetable Oil MACT 40 CFR 63, Subpart GGGG and Subpart A. The Plan shall include the items in paragraphs (a)(1) through (a)(7) of 40 CFR 63.2851. The Permittee shall keep the Plan on site and readily available as long as the source is operational. If any changes are made to the Plan for demonstrating compliance, then the Permittee must keep all previous versions of the Plan and make them readily available for inspection for at least five years after each revision. The Division may require reasonable revisions to the Plan if the procedures lack detail, are inconsistent or do not accurately determine solvent loss, HAP content of the solvent, or the tons of oilseed processed.
