Introduction

This narrative is being provided to assist the reader in understanding the content of the attached administrative Title V Permit amendment. Complex issues and unusual items are explained here in simpler terms and/or greater detail than is sometimes possible in the actual permit. This permit amendment is being issued pursuant to: (1) Georgia Air Quality Act, O.C.G.A § 12-9-1, et seq. (2) Georgia Rules for Air Quality Control, Chapter 391-3-1, and (3) Title V of the Clean Air Act Amendments of 1990. Section 391-3-1-.03(10) of the Georgia Rules for Air Quality Control incorporates requirements of Part 70 of Chapter I of Title 40 of the Code of Federal Regulations promulgated pursuant to the Federal Clean Air Act. The primary purpose of this permit amendment is to make administrative changes to the permit. Such administrative changes may include a facility name and/or ownership change and fixing typographical errors. The following narrative is designed to accompany the draft permit amendment and is presented in the same general order as the permit amendment. It describes the facility receiving the permit amendment, existing permits and the changes being made to the permit. This narrative is intended as an adjunct for the reviewer and to provide information only. It has no legal standing.

I. Facility Description

A. Existing Permits

Table 1: Current Title V Permit and Amendments

Permit/Amendment Number	Date of Issuance	Comments	
		Yes	No
4911-297-0040-V-05-0	November 30, 2001		X

Table 2: Comments on Specific Permits

Permit Number	Comments

B. Regulatory Status

The facility is adjacent to an existing facility, LG&E Power Monroe, LLC, AIRS No. 04-13-297-00042. The parent company of MPC Generating, LLC (Progress Energy) purchased the LG&E Power facility, effective on February 15, 2002. The new name of the LG&E Power facility will be Walton County Power, LLC. Because the facilities are located adjacent and are under common control, they are one source under Clean Air Act.

1. PSD/NSR

Due to the purchase of the neighboring facility, the site is now a major source under the PSD regulations.

2. Title V Major Source Status by Pollutant

Table 3: Title V Major Source Status

Pollutant	Is the Pollutant Emitted?	If emitted, what is the facility's Title V status for the Pollutant?		
		Major Source Status	Major Source Requesting SM Status	Non-Major Source Status
PM	✓			✓
PM ₁₀	✓			✓
SO ₂	✓	✓		✓
VOC	✓			✓
NO _x	✓	✓		✓
CO	✓	✓		✓
TRS	✓			✓
H ₂ S	✓			✓
Individual	✓			✓

Pollutant	Is the Pollutant Emitted?	If emitted, what is the facility's Title V status for the Pollutant?		
		Major Source Status	Major Source Requesting SM Status	Non-Major Source Status
HAP				
Total HAPs	✓			✓

II. Proposed Amendment

A. Description of Amendment

This amendment is to signify the name change of the Monroe Power Plant to MPC Generating, LLC, and for the change in ownership from Carolina Power & Light to MPC Generating, LLC, which is owned by Progress Genco Ventures LLC. This change took place on February 1, 2002. No conditions are being amended or added at this time. However, the Site Determination section is being updated to reflect the fact that the adjacent power plant, AIRS No. 04-13-297-00042, with the new name of Walton County Power, LLC, has been purchased by the same parent company that owns MPC Generating. Therefore, the current Title V Permit 4911-297-0040-V-05-0 is being revoked and reissued as Permit 4911-297-0040-V-06-0.

B. Emission and Operating Caps

Not Applicable.

C. Monitoring and Record keeping
